EDUCATION

2020 - 2022

SAGARMATHA SECONDARY
SCHOOL

- Management Stream
- GPA: 3.36

2024 - 2026

INFORMATICS COLLEGE POKHARA

- BSc (Hons) Computing

SKILLS

- Project Management
- Teamwork
- Effective Communication
- Programming Language: Java, Python, C++
- Web Development: Html, CSS
- Development Tools: IntelliJ IDEA, Eclipse, VS Code, Elementor

LANGUAGES

- English: Fluent
- Nepali: Fluent
- Hindi: Basics

PROFILE SUMMARY

I'm a passionate computing student with a love for coding and problem-solving. I have experience in Java, Python, and C++, along with web development skills in HTML and CSS. I enjoy building projects, learning new technologies, and working with teams to create innovative solutions. Always eager to grow and take on new challenges, I'm looking for opportunities where I can apply my skills and continue learning.

WORK EXPERIENCE

Underground Water Leakage Solution (IoT Project)

IoT Engineer (Team Project) | 2025

- Collaborated on an IoT-based project to detect and report underground water leakage using smart sensors.
- Designed and tested sensor-based solutions for efficient water monitoring.
- Contributed to the hardware and software integration, improving real-time data tracking.

Furniture Store Billing System

Software Developer | 2024

- Built a billing system for a furniture store using Python, handling product details, pricing, and invoice generation.
- Developed a structured approach for managing transactions, improving efficiency.
- Ensured smooth functionality with error handling and optimized data processing.

Store Management System

Java Developer | 2024

- Developed a store management system using Java and Swing GUI, managing product inventory, sales, and store operations.
- Implemented interactive UI elements like text area, drop box, buttons and validation mechanisms.
- Enhanced usability with a simple yet effective grid-based layout.

Kirana Mart Website

Web Developer (Team Project) | 2024

- Designed and developed a web application for a Kirana Mart, categorizing grocery items into groups for better organization.
- Implemented a clean and user-friendly interface using HTML, CSS and JavaScript.
- Improved the shopping experience by optimizing product browsing and selection.
