PROFILE

I am Bhakta Prasad Bhandari, a dedicated and enthusiastic IT student currently in my second year of study. I have hands-on experience in Java programming, Python, and some C++, with a strong interest in software development and problem-solving. I am passionate about creating effective and user-friendly applications.

WORK EXPERIENCE

Smart Door System (IoT Project)

- Developed an automated smart door system using Arduino, NodeMCU(ESP8266), IR sensors, and a servo motor.
- Integrated hardware components with software for remote access and security features.

eCommerce Website

- Designed and developed a fully functional eCommerce platform with product listing, user authentication, and payment integration.
- Used HTML, CSS, JavaScript, and backend technologies to create a responsive and dynamic website.

EDUCATION

🎓 **Bachelor's Degree in Information Technology (Ongoing, 2nd Year)**

Informatics College Pokhara
